## **Destination Moon: The Apollo Missions in the Astronauts' Own Words** Rod Pyle

The Apollo space program was the largest technical undertaking of the twentieth century. In three short years, from 1969-1972, nine missions headed to the moon, and six of them landed men on its surface and safely returned home.

*Destination Moon* tells the significant, spectacular, and intriguing story of the Apollo program through first-person accounts by the astronauts themselves—both their mission dialogue and retrospective reminiscences—explained and put into context with expert commentary by Rod Pyle. With more than 100 images, some rarely seen, *Destination Moon* is a whole new look at one of mankind's most extraordinary achievements.
