## **Spring MVC: Domine o principal framework web Java (Portuguese Edition)** Alberto Souza

O Spring é o principal concorrente da especificação JavaEE. Com uma plataforma muito estável e com integração fina entre todas as suas extensões, fornece um ambiente muito propício para que o programador foque nas regras de negócio e esqueça dos problemas de infraestrutura.

Durante o livro, será construída uma aplicação baseada na loja da Casa do Código e você terá a chance de utilizar diversas das funcionalidades e integrações providas pelo framework. Usaremos o Spring MVC como alicerce da nossa aplicação web e para implementar todas as funcionalidades, utilizaremos diversas integrações, como: Spring JPA, para facilitar o acesso ao banco de dados; Spring Security, para segurança da aplicação; diferenciação de ambientes com a parte de Profiles; respostas assíncronas para melhorarmos a escalabilidade; e ainda detalhes, como cache e suporte às requisições, seguindo o estilo REST.

Tudo isso sem uma linha de XML, todas configurações serão feitas baseadas em anotações e código Java.

Conheça todos os nossos livros em [www.casadocodigo.com.br](http://www.casadocodigo.com.br).
