## **e-Learning e Social Network: il modello, le tecnologie e gli ambiti di applicazione: 3 (iGnosis) (Italian Edition) Gianluca Gigante**

Questo libro si pone l'obiettivo di introdurre il lettore al modello della formazione a distanza (anche detto e-Learning) e alla sua integrazione e sviluppo con i Social Network, per la costituzione di nuovi modelli formativi per l'educazione scolastica, universitaria e professionale. La tecnologia è un importantissimo fattore abilitante a tale sviluppo e viene affrontata nell'opera con un linguaggio semplice e chiaro, analizzando le piattaforme applicative abilitanti e approfondendo alcuni casi reali di applicazione. I temi sono affrontati in modo sintetico e pratico con l'intento di offrire una panoramica generale di riferimento e indicazioni pratiche per la valutazione delle tecnologie da impiegare. Il testo non ha l'ambizione di affrontare in modo esaustivo i temi proposti, che invece richiedono e meritano un approfondimento opportuno attraverso altre fonti; si propone piuttosto come uno strumento di sintesi e di orientamento per qualsiasi lettore, anche quello che si avvicina per la prima volta all'e-Learning e alle sue tecnologie.
