The New Global History Bruce Mazlish

From a distinguished author in the field, *The New Global History* is a critical inquiry into the historical process of globalization, which is seen as a distinctly twentieth century phenomenon with its roots in the age of expansion of the early modern world.

Cutting across disciplinary boundaries, *The New Global History* offers a fresh, overarching view of the process of globalization that is always empirically based and discusses the most important themes, such as policy, trade, cultural imperialism and warfare. Bruce Mazlish argues that globalization is not something that the West has imposed upon the rest of the world, but the result of the interplay of many factors across continents.

Students of history, politics and international studies, will all find this a valuable resource in the pursuit of their studies.
