The Queen and Her Attendant: When Love is Life or Death P.M. Fox

In a medieval culture, Cassandra is married to a King without meeting him; she is ushered into the bridal suite for a captivating experience with an attractive man who turns out not to be the King, but merely her attendant who's role is to fulfill her sensual desires without actually having intercourse with her because this is punishable by death. The King has had many previous wives, all executed by him because they failed to produce an heir. Cassandra and her attendant fall in love and he fathers her child in secret, in order for her to avoid the executioner's axe, while a revolution forms because the people are starving as the King imposes more taxes. Cassandra and her attendant must have other lovers as they seek to find a way to be together in a kingdom that dictates very specific roles for each of its subjects.
