The Viking Blitzkrieg: 789-1098 AD Martyn Whittock, Hannah Whittock

Martyn Whittock argues that without the Viking Wars there would have been no united England in the tenth century, no rise of the Godwin family and their conflict with Edward the Confessor, no Norman connection, no Norman Conquest and no Domesday Book. All of these features of English history were the products, or by-products, of these wars and the threat of Scandinavian attack. The wars and responses to them accelerated economic growth; stimulated state formation and an assertive sense of an English national identity; created a hybrid Anglo-Scandinavian culture that spread beyond the so-called Danelaw; and caused an upheaval in the ruling elite. By looking at the whole period of the wars and by taking a holistic view of their political, economic, social and cultural effects, their many-layered impact can at last be properly assessed.
