Web Design for Libraries Charles Rubenstein

Having a clear, attractive, and easy-to-navigate website that allows users to quickly find what they want is essential for any organization—including a library. This workbook makes website creation easy—no HTML required.

• Offers a basic textbook for short courses or workshops, or a segment of a longer course that would cover advanced tools to create websites

• Supplies a useful resource for readers with little or no programming background as well as for librarians who need to refresh or update their existing knowledge about web design

• Clarifies the benefits and limitations of using commercially available software tools for web design

• Utilizes a fictitious library as an instruction example that underscores key points for readers
