In Peter's Footsteps: A Papal History Jon Hult

The fortunes of the Roman Catholic Church have varied with the swings of history's pendulum, from the earliest days of fierce persecution, to its near-total domination of the medieval period, to the Renaissance and Reformation, which moved Europe and the New World into the modern era of high technology and pervasive faithlessness. Diverse in piety, talent, and intellect, the popes have been the ultimate arbitrators of life, faith and morals for countless millions. Some popes made the office a fiefdom for family advancement and personal enrichment, while others sincerely attempted to spread the unique message of the Gospel to all humanity. Despite times of degradation, multitudes have regarded Rome and the papacy as the spiritual heart of Western civilization. Nearly 300 popes have reigned over two millennia. In Peter's Footsteps is a concise, colorful, and highly readable account of the pains they have taken to preserve the church and the faith of its believers.
