## Social Capital: An International Research Program

For two decades, a significant number of scholars have subscribed to a common definition of social capital (resources embedded in social networks), employed a standard measurement (the position generator methodology), and conducted original research. Their sustained efforts have demonstrated the power of the concept of social capital in diverse arenas of research and varied cultural and societal settings. Their work has contributed to the substantiation, development, and expansion of social capital as a key scientific concept and theory. This book presents an introduction to some of the most recent work in the area. The volume editors have brought together scholars in North America, Europe, and East Asia to offer original and accessible reports of their own research studies. Covering both methodological and substantive issues, they demonstrate the continued importance of social capital as a guiding concept and theory in social sciences today.

#### Jocelyn Harper:

As a scholar exactly feel bored for you to reading. If their teacher expected them to go to the library in order to make summary for some reserve, they are complained. Just small students that has reading's soul or real their hobby. They just do what the teacher want, like asked to the library. They go to there but nothing reading really. Any students feel that reading is not important, boring as well as can't see colorful pics on there. Yeah, it is to be complicated. Book is very important in your case. As we know that on this time, many ways to get whatever we really wish for. Likewise word says, many ways to reach Chinese's country. Therefore this Social Capital: An International Research Program can make you feel more interested to read.
