Foster Kids (The Changing Face of Modern Families) Julianna Fields

Over half a million children in the United States are in foster care. Some of them have been removed from their parents because of abuse, neglect, or abandonment. Some of their parents have died or been put into prison. When foster parents take in these children, they become part of a family. Sometimes this family has nearly as many problems as the child's original family, but sometimes it can be a place where the child learns about love and belonging. Foster families, both the parents and children, face many challenges but they can also be extremely rewarding. The families in this book have had both good and bad experiences, but they have all learned things from what they have faced.
