**Quantum Computation and Quantum Information** Michael A. Nielsen, Isaac L. Chuang

One of the most cited books in physics of all time, Quantum Computation and Quantum Information remains the best textbook in this exciting field of science. This 10th anniversary edition includes an introduction from the authors setting the work in context. This comprehensive textbook describes such remarkable effects as fast quantum algorithms, quantum teleportation, quantum cryptography and quantum error-correction. Quantum mechanics and computer science are introduced before moving on to describe what a quantum computer is, how it can be used to solve problems faster than 'classical' computers and its real-world implementation. It concludes with an in-depth treatment of quantum information. Containing a wealth of figures and exercises, this well-known textbook is ideal for courses on the subject, and will interest beginning graduate students and researchers in physics, computer science, mathematics, and electrical engineering.

### **From reader reviews:**

#### **Sara Otoole:**

Exactly why? Because this Quantum Computation and Quantum Information is an unordinary book that the inside of the guide waiting for you to snap it but latter it will shock you with the secret the idea inside. Reading this book close to it was fantastic author who else write the book in such amazing way makes the content on the inside easier to understand, entertaining way but still convey the meaning completely. So , it is good for you for not hesitating having this anymore or you going to regret it. This amazing book will give you a lot of positive aspects than the other book have such as help improving your talent and your critical thinking way. So , still want to hesitate having that book? If I had been you I will go to the publication store hurriedly.

#### **Bradley Harshbarger:**

This Quantum Computation and Quantum Information is great book for you because the content that is certainly full of information for you who also always deal with world and get to make decision every minute. This book reveal it information accurately using great arrange word or we can claim no rambling sentences inside it. So if you are read it hurriedly you can have whole details in it. Doesn't mean it only gives you straight forward sentences but tough core information with attractive delivering sentences. Having Quantum Computation and Quantum Information in your hand like keeping the world in your arm, information in it is not ridiculous one particular. We can say that no book that offer you world within ten or fifteen minute right but this e-book already do that. So , this really is good reading book. Hi Mr. and Mrs. active do you still doubt that?

#### **Bethany Archie:**

What is your hobby? Have you heard that will question when you got scholars? We believe that that query was given by teacher on their students. Many kinds of hobby, Every person has different hobby. And you also know that little person such as reading or as reading become their hobby. You need to know that reading is very important as well as book as to be the point. Book is important thing to add you knowledge, except your own personal teacher or lecturer. You find good news or update regarding something by book. A substantial number of sorts of books that can you go onto be your object. One of them is this Quantum Computation and Quantum Information.

#### **Luther Jensen:**

Some individuals said that they feel uninterested when they reading a reserve. They are directly felt this when they get a half portions of the book. You can choose often the book Quantum Computation and Quantum Information to make your current reading is interesting. Your skill of reading expertise is developing when you such as reading. Try to choose basic book to make you enjoy to read it and mingle the idea about book and looking at especially. It is to be 1st opinion for you to like to open up a book and go

through it. Beside that the reserve Quantum Computation and Quantum Information can to be a newly purchased friend when you're really feel alone and confuse with the information must you're doing of that time.
