Deep Sea Danger: Be a hero! Create your own adventure and find the missing treasure (Geography Quest) John Townsend

Are you ready for an amazing adventure that will test your brain power to the limit, full of mind-bending puzzles, twists and turns? You have been summoned to Professor Fustigate's dusty study at the Ocean Explorers Museum. 300 years ago the pirate ship Shiver Me Timbers sank and the captain's logbook was found ashore. Ever since, explorers have tried to find the wreck. Just yesterday, Professor Fustigate discovered that if you can follow the coded clues found in the logbook, you will be lead to the wreck and its treasure. Only with your help can the wreck be found, you're being depended on to locate the treasure! Readers must use their problem-solving skills and geographical knowledge to navigate through four thrilling adventures. Geography Quest follows the popular Science and Rubik's Quest series. Questions are carefully chosen to address core geography subjects for the age group. Finding the answers enables readers to advance through the story, learning more about geography with every step they take. Clues are dotted along the way, and wrong turns will direct readers towards the right answer! A glossary explains geographical words and provides added reference material.
