Bioenergetics

David G. Nicholls, Stuart Ferguson

Bioenergetics David G. Nicholls, Stuart Ferguson

Extensively revised, the fourth edition of this highly successful book takes into account the many newly determined protein structures that provide molecular insight into chemiosmotic energy transduction, as well as reviewing the explosive advances in 'mitochondrial physiology'-the role of the mitochondria in the life and death of the cell.

Covering mitochondria, bacteria and chloroplasts, the fourth edition of *Bioenergetics* provides a clear and comprehensive account of the chemiosmotic theory and its many applications. The figures have been carefully designed to be memorable and to convey the key functional and mechanistic information. Written for students and researchers alike, *Bioenergetics* is the most well-known, current and respected text on chemiosmotic theory and membrane bioenergetics available.

- BMA Medical Book Awards 2014-Highly Commended, Basic and Clinical Sciences,2014,British Medical Association
- Chapters are now divided between three interlocking sections: basic principles, structures and mechanisms, and mitochondrial physiology.
- Covers new advances in the structure and mechanism of key bioenergetic proteins, including complex I of the respiratory chain and transport proteins.
- Details cellular bioenergetics, mitochondrial cell biology and signal transduction, and the roles of mitochondria in physiology, disease and aging.
- Offers readers clear, visual representation of structural concepts through full colour figures throughout the book.

From reader reviews:

Michael Battle:

Do you have favorite book? In case you have, what is your favorite's book? E-book is very important thing for us to find out everything in the world. Each book has different aim or maybe goal; it means that e-book has different type. Some people experience enjoy to spend their time and energy to read a book. They may be reading whatever they take because their hobby is reading a book. Why not the person who don't like studying a book? Sometime, particular person feel need book whenever they found difficult problem or exercise. Well, probably you will require this Bioenergetics.

Bert Martinez:

Information is provisions for people to get better life, information nowadays can get by anyone with everywhere. The information can be a expertise or any news even restricted. What people must be consider while those information which is inside the former life are challenging be find than now could be taking seriously which one is acceptable to believe or which one often the resource are convinced. If you find the unstable resource then you have it as your main information it will have huge disadvantage for you. All those possibilities will not happen inside you if you take Bioenergetics as your daily resource information.

Frances Drury:

The reserve untitled Bioenergetics is the publication that recommended to you to study. You can see the quality of the e-book content that will be shown to you actually. The language that writer use to explained their ideas are easily to understand. The author was did a lot of study when write the book, to ensure the information that they share for you is absolutely accurate. You also could get the e-book of Bioenergetics from the publisher to make you far more enjoy free time.

Buddy Beckstead:

Reading a book to get new life style in this 12 months; every people loves to study a book. When you study a book you can get a lot of benefit. When you read books, you can improve your knowledge, mainly because book has a lot of information in it. The information that you will get depend on what forms of book that you have read. If you need to get information about your research, you can read education books, but if you want to entertain yourself look for a fiction books, these us novel, comics, along with soon. The Bioenergetics will give you a new experience in studying a book.
