## **Learning Democracy: Democratic and Economic Values in Unified Germany (Comparative Politics)**

Robert Rohrschneider

Germany's unification initially raised fears about an all-powerful and undemocratic Germany at the heart of Europe. Based on hundreds of in-depth interviews, this book examines the democratic views of parliamentarians in Germany and compares them to the views of ordinary citizens. The book argues that although the majority of Germans support democratic values, especially in western Germany, there is significant evidence for lingering authoritarianism in the East. More than just an analysis of German political culture, the book offers compelling conclusions about the future of democracy in all post-socialist states.
