That was when they were going to use their creativity in order to make up hearty, nourishing meals for the whole family. In fact, in olden times, it was the responsibility of one particular person to cook for the whole family, and she would not be bothered with other duties. That was because everybody knew that her forte was cooking and she was happy, cooking in the kitchen, brewing up recipes, contacting her friends for new tips and techniques, concocting some marvelous surprises and some fabulous failures, and so on. And the full family appreciated this effort on her part. Times changed, and the joint families started to go nuclear in the 20th and 21st century. Instead of a full family living together and eating together and playing together and praying together, many families started moving away from the main family and setting up their own households.
