Clinical Procedures for Physician Assistants, 1e Richard W. Dehn, David P. Asprey

This concise, well-organized book is the first clinical procedures text written by physician assistant educators and practitioners for physician assistant students. It focuses on the 72 most frequently taught, commonly performed diagnostic and treatment-related procedures that practicing PAs need to know. Step-by-step, hands-on procedure sections clearly and precisely explain the 'how-to' steps of a procedure, while other sections provide essential diagnostic or treatment information such as indications, contraindications, essential anatomy and physiology, patient preparation, materials, and more. Chapters on Informed Consent, Standard Precautions, Patient Education Concepts, and Procedure Documentation discuss essential, non-procedural skills and considerations to ensure that readers have a comprehensive understanding of the use of procedures in physician assistant practice.
